## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claimed methods of laser induced breakdown of a material comprising depositing energy within a material to extract electrons from a valence band providing unbound electrons at a first absorption volume with the electron density being lower at the periphery of the first absorption volume and higher at one or more select regions inward of the periphery of the first absorption volume, and depositing added energy within the first absorption volume causing contraction of the first absorption volume to a smaller second absorption volume and thereby causing damage of material selectively within the second absorption volume essentially without collateral damage to the balance of material in the first absorption volume is not disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel M. Heinrich whose telephone number is 571-272-1175. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G. Dunn can be reached on 571-272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
